

Single Strand Wire is the ideal option for helping structure blueberry and raspberry bushes and it makes a great alternative to barbed wire. All of our heavy-gauge single strand wire is made from class 3 galvanized steel, which is the highest level of galvanization. This means that the metal wire is specifically designed to withstand even the harshest conditions.

Product No: 1029

Weight: 22kg (48.5 lbs)	Gauge: 12.5 gauge
Height: N/A	Galvanization: Class 3
Length: 1600'	Pull Strength: 300-500mpa (1mpa = 145psi)
Style# N/A	Other: Regular Tensile
Notes:

Product No: 1053

Weight: 45kg (99 lbs)	Gauge: 12.5 gauge
Height: N/A	Galvanization: Class 3
Length: 3600'	Pull Strength: 1300mpa (1mpa = 145psi)
Style# N/A	Other: High Tensile
Notes:
